

## Mundane Astrology –

Prof RM.PALANIAPPAN, M.A. (ASTROLOGY)

One of the important systems of prediction is the Mundane Astrology. This does not involve individual charts. It is based on eclipses, lunation, transiting aspects and migrations of planets, especially Sun, Moon, Rahu, Ketu, Uranus, Neptune, Pluto, Mars and Saturn which have greater contributions towards any Mundane affairs whereas Venus, Mercury and Jupiter have lesser contributions.

This is the Astrology for masses, for countries and for all the events which occur at particular region on the surface of the earth; from the hot radiations of Sun to the political affairs of a nation; The assassination of Leaders and Kings to the massacre of common men and many other affairs which could cause a change in the universe.

The Mundane Astrology rules over all the events, which are in the lap of the God. If we refer The Bible we can form an idea about the progression of this part of Astrology. At the beginning the God has said 'Let there be light', from the light every thing has been created and handed over to the mankind, through the first father and mother, Adam and Eve. Then God has instructed Novah saying that there would be a flood which will cause havoc to all living beings and ordered Novah to construct a huge ship, in which all living beings were collected in pairs, even in over literature Mahabharatha and Shivpurana, the positive and negative effects of many Mundane affairs have been explained. As the history of mankind had progressed many saintly men prophets and divine astrologers, predicted about the good and bad aspects through mundane astrology.

The prophetic sayings of Nostradamus and Saint Veera Brahendra garu are the best examples for the predictive system of Mundane Astrology. Our forefather's knowledge about the heavenly bodies, the time and the space, the fate and the free will related to Mundane affairs was highly one sided. They Saw, visualized understood and never exposed them to anyone open heartedly. Even the best astrologers of the modern times have hesitated to reveal the secrets of Mundane Astrology, which were locked under the golden gates of their elevated and divine mind.

The modern astrologers of nineteenth and twentieth centuries with their scientific bent of mind have come forwarded to reveal the hidden secrets of the Mundane Astrology by studying the relationship among the astrological principle, the cosmogony, the universe and the mankind.

Alan Leo, Manik Chand Jain, L.C.Luthra and K.K. Kedar, have written some books on Mundane Astrology. In their works, each and every one has expressed the difficulties which they came across in systematically analyzing and studying the various facts and figures related to Mundane affairs. All of them have expressed our over lack of knowledge in fixing the exact positions of longitude and latitudes of the place and time to predict the Mundane events. They are of the opinion that Tropical School can be more better than the sidereal school and left to the discretions of the research scholars in astrology.

I will be much thankful to Sri Rajendra Nimje, the Chairman and the patron of The International Organization of K.P. System of Astrology, Hyderabad, who has given me inspiration and impetus to apply K.P. System to various Mundane affairs, study them well and bring forth a common book on the predictive system of Mundane affair. I will also be thankful to grandson Ramacharana who has picked up some tornout pages of book on Indian Social Thoughts in which a wonderful ideology on various aspects of Mundane Astrology have been given.

He says that our Government was saying that the atomic energy can be used for constructive and creative purpose, they explode an atomic bomb in a desert in an inauspicious day without consulting an Astrologer, so project proposed has not become fruitful, quite a handsome of national wealth has been wasted, in this futile effort.

Inauspicious hour in the first rocket flight at Sriharikota has failed on the first day, but it was successful on the second day on the auspicious hour.

In ancient India it was a tradition to have an astrologer in every court of the King, who had guided the King and his official men to avoid natural havoc and save the people. In the history of civilization it has been said that the wise men saved the people from inevitable havocs of the nature by studying the mundane situation of the land, thus people of the Indus Valley migrated towards south, and settled themselves.

Prof. B.V. Raman in his book Astrology of Predicting Weather and Earthquakes has insisted that Astrology along with Mundane astrology should be taught to each and every officials in the Meteorological Department, so that they can predict about the fore coming calamities as early as 40 years, where as we can understand the calamities of natural changes within 4 hours through the meteorological instruments by which we are unable to save the mankind within few hours duration, and adopt necessary efforts to protect the calamities.

If we see the origin of the word "MUNDANE", it has been obtained from the Latin word "MUNDUS" this word has the root from Sanskrit word "MANDALAM" which is means a region on the surface of the earth which is meant for a purpose or where a specific action would have been taken place.

Apart from the zodiac signs, various houses planets and their characteristics, Indian Mundane system of prediction also give importance to the Panchang, Navanayakas and Upanayakas of the year.

## PART – II

### (A) The regions of the world indicated by the Zodiac Circle:

The first list of various major and minor regions covered by our Zodiac circle has been given by Ptolemy in his book 'Tetrabiblos'. He had also mentioned that the world known to us is smaller than the existing world, which is larger and some old countries would have been destroyed and some new countries would have been created. So it is very essential to change the list of regions of the world periodically according to Zodiac system and their ruler ship.

### PART – III

The Hindu year Tharana Samvathsara is the most unhappy year for India. The sloka related to Tharana Samvathsara says that there will be no rain on the land, the destruction will be greater, the mankind and other living-being will die in en-mass and blocks by natural havocs. The antisocial elements will take upper hand people will have no food and suffer from diseases.

According to the Nava Nayakas of the year King was the Sun he will give heavy rain, fear for the ruler and calamities will be caused out of fire and heavy rain. Dhanyathipathi Mercury will create heavy loss of crops and give maximum trouble to the rulers. Senapathy Arkathipathi and Megadhipathi is Chandran, will give heavy rain, about 85% in the sea and 15% on the land.

Even the deity of Makara Sankaranthy Michra gives no good results to Indian Population it indicates destruction of upper class people especially Kshathrias, bad to women, sickness, destruction of crops and cattles, and financially we will face a bad time.

During this year in July 2004 at Kumbakonam in Tamilnadu 95 children died out of fire accident, a lot of soldiers sacrificed in the war front, a tsunami took place in May 2004 near Dabhol Maharashtra, Termors of earthquake occurred in Madras, Bangalore, Bombay..... and few other place. Out of all calamities the worst tsunami occurred at Madras early in the morning and intensified at 8.02 am as a result of this the entire south eastern coastal areas of Tamil Nadu are seriously affected and unforeseen calamities took place in the sea coast of Madras. Tsunami is produced by the earthquake rupture caused in deep part of the sea. It has been noted that this tsunami affected many places in the southeastern part of the world, Malaysia, Thailand, Indonesia, Maldives Island, Srilanka, Andaman and Nicobar Island and India. The epicenter of the earthquake ruptured, is formed near Srilanka with an intensity of 9.00 Richter scale at 6.09 hrs and transmitted to India at 7.58 and all havocs completed within 9.05 am. The aftereffects of tsunami is periodically continued and disturbed till 29<sup>th</sup> December 2004.

A horoscope has been cast according to the K.P. system, which is given below.

Now let us analyze the horoscope of this incident. It occurred on a full moon day.

Ascendant is Capricorn in which Neptune is posited. Ascendant and Neptune are aspected by Saturn the ascendant Lord and Jupiter the Lord of the 12<sup>th</sup> house who is moderate in nature. It indicates the calamities by water.

Sun is posited in the 12<sup>th</sup> house aspected by the Moon whose sub lords of the cuspal lords are Saturn and Ketu, which indicates inauspiciousness.

Earth and Moon are posited in the 6<sup>th</sup> house in the Star Mrigashira whose Star Lord is Mars. Though the cuspal Lord Mercury and Star Lord Mars are posited in 11<sup>th</sup> house, they are conjoined with Pluto, highly detrimental planet, who always causes death, loss of properties and makes the people to suffer.

Mars is in 11<sup>th</sup> house posited along with moderate planets Mercury and Venus along with death inflicting Pluto. In Indian astrology Scorpio is the house of Mars in western Astrology Scorpio is the house of Pluto. Mars aspects 2<sup>nd</sup>, 5<sup>th</sup> and 6<sup>th</sup> houses, his association with Pluto destroy families and all benefits of mundane life and finally lead to sickness and debts. Since Mars is in the Star of Saturn, Anuradha the suffering will be high in all respects, and mankind will face from pan to pitch.

Saturn is in Cancer the 7<sup>th</sup> house, the cuspal lord Moon is posited in the 6<sup>th</sup> house aspected by Sun, causing the full moon day, which is a favorable day for high tides having greater forces and causing calamities on earth.

Rahu is in Ashwini whose cuspal lord is Mars and the Star Lord is Ketu and Ketu is in Chitra, whose cuspal lord is Venus and the sub lord of Venus is Mars. The Star lord of Ketu is also Mars. These intensified connection among Rahu, Ketu and Mars which is more than sufficient to create a heavy loss of properties, wealth, family which would have been given to a person by the grace of the God.

Ruling Pluto is in 9<sup>th</sup> house Neptune in Lagna, having Star Lords Moon and sublord Mercury who is conjoined with Pluto. The Uranus in 2<sup>nd</sup> house having the Star Lord Saturn aspected by Neptune are highly inauspicious setup.

The horoscope cast on the K.P. system throw more light on the Tsunami of 26<sup>th</sup> December 2004.

If we are able study such havocs we can formulate and predict future havocs by doing so we save the mankind for all sorts of ordeals. This can be done, only by K.P.System of Astrology.
