

## Options Theory Formulae:

Consider the ruling planets as below:

### Ruling Planets:

I) Ascendant Star Lord

II) Ascendant

III) Moon star lord

IV) Moon Rasi lord

V) Day Lord

For Nodes consider their rasilord.

Do not consider RPs in retro constellations.

Aries =1, Taurus =2, Gemini=3, Cancer =4, Leo =5, Virgo =6, Libra=7, Scorpio =8, Sagittarius =9,  
Capricorn =10, Aquarius =11, Pisces =12

Add the Rasi Numbers for : I to V i.e. Ascendant star lord, Ascendant, Moon Starlord, Moon Rasilord, Day lord after removing RPs which are in retro constellation. Consider Rasilord of Node instead of node if found in Ruling Planets.

Consider table 1 or table 2 as per options are single digit or multi digit.

TABLE 1	Options upto 9
Single Digit RP No < Options	Direct Answer
Single Digit RP No. > = options	Deduct options from RP No. repeatedly

TABLE 2	Options 10 or more
RP Number <= Options	Direct Answer
RP Number > options	Deduct options from RP No. repeatedly

Get the Right Option indicated by Divine Grace!
